Financial Planning, Financial Advice,
Retainers and Once Off

Welcome to Your Financial Planning Journey

WELCOME TO RICH IDEAS GROUP

WHERE WE FOCUS ON FAMILIES AND PEOPLE FIRST, NOT POLICY SALES.

At Rich Ideas, we don't believe in one-size-fits-all plans.
Your life is unique—your financial plan should be too.

Managing money can feel overwhelming, confusing, and even stressful. That's where we come in.
We help you make sense of it all, and build a plan that's simple, clear, and made just for you.

We're proudly independent. That means our advice is always focused on one thing—**YOU**. We don't push products to earn high commissions. Instead, we charge a once-off fee to create your personal financial plan. From there, we work with you on an ongoing basis through our retainer packages—so your plan keeps changing as your life keeps changing.

We'll walk the journey with you—helping you see where you are now, where you want to be, and how to get there. And because life changes, we'll keep your plan up to date, so it always supports what (and who) matters most.

We Listen. We Simplify. We Guide.

Whether you're starting out, growing your family, changing careers, building a business, or planning for retirement—we help you make smart money choices that give you more confidence and peace of mind. Life's transitions are many, we have decades of experience to help you navigate them all.

At Rich Ideas, we're not here to sell products. We're here to help you live the life you want—with your money working for you, not the other way around.

**A NOTE FROM RICH IDEAS GROUP FOUNDER AND
DIRECTOR OF FINANCIAL PLANNING, TERENCE TOBIN CFP®**

I believe financial planning should feel like a conversation, not a lecture. Our packages are designed to support you and your loved ones through life's transitions. Whether you're just starting out or thinking about the legacy you'll leave behind, the team at Rich Ideas are here to guide you with empathy, clarity and experience.

The Rich Ideas Process

WHAT YOU CAN EXPECT

Financial planning doesn't have to be complicated. Here's how we walk the journey with you—step by step.

1. Let's Connect - Do We Fit?

A short virtual chat to see if we're the right fit. We'll get to know each other, hear your concerns, and share how we work.

2. Foundation Session/s

We listen carefully to understand your goals, values, and financial picture. You'll share documents, complete our client questionnaire, and tell us what matters most.

3. Making Sense of It All

Behind the scenes, we do the number crunching and research. This includes analysis, projections, comparisons, and recommendations tailored just for you.

4. Your Financial Roadmap

We meet again to walk through your personalised plan. Clear, actionable steps you can take right away—and support to help you do it.

5. Implementation

We help put your plan into action. This could include settling debt, tax strategies, setting up investments, sorting out insurance, drafting a will, and cashflow planning.

6. Ongoing Guidance

As life changes, so should your plan. We meet regularly (depending on your package) and stay in touch to keep your plan on track.

Understanding our fees

At Rich Ideas, we believe financial planning should be clear and approachable—starting with how we charge for our services and how we will add value to your journey with us.

We operate on a fee-based model, which means we're paid for our time, advice, and expertise—not for selling you products. This ensures that every recommendation is made with your best interests in mind.

Let's First See If We're a Good Fit

We begin with a relaxed, no-obligation virtual chat called “*Do We Fit*”. This session is offered at our expense and gives us both a chance to connect, understand your needs, and answer any questions—no pressure, no sales pitch.

What Do Our Fees Cover?

Our planning fee is tailored to your personal situation, and is designed to provide the care, service, expertise, attention, and dedication you deserve—each and every year.

Depending on your needs, this may include:

- Full financial planning
- Budgeting and cashflow strategies
- Investment and retirement guidance
- Estate and legacy planning
- Support with major purchases (property, vehicles)
- Wills, trusts, and more

Why Do We Charge Fees?

Your financial future deserves more than a quick product pitch. Our fee covers the real work of financial planning—understanding your life, mapping out your goals, running the numbers, analysing your options, and creating a clear, personalised plan to help you thrive. *(You'll see this in more detail throughout this brochure.)*

All our fees are fully disclosed, clearly explained, and agreed upon in advance. You'll never receive an unexpected invoice or hidden charge.

Our Promise to You

We'll walk this journey together—with honesty, empathy, and independence. You'll always know what you're paying for, and more importantly, why it matters.

A Year in the life of a Rich Ideas Client

REVIEW YOUR FINANCIAL GOALS

Check in on your short-, medium-, and long-term goals. Think about your important life events. Make sure your goals match your current lifestyle and income.

BUDGET AND CASHFLOW

Create or update your cashflow plan (budget). Track your income and spending each month – create awareness and identify trends. Set limits on non-essential spending (those little extras that add up).

SAVINGS PLAN

Build or boost your emergency fund (aim for 3 to 6 months of expenses). Plan ahead for big spends like holidays or major purchases. Increase your regular savings or investment contributions.

DEBT REDUCTION PLANS

Understanding your current debt situation, interest rates and fees. Let's create a debt reduction strategy and reduce your interest payments in an organised and meaningful way.

INVESTMENT REVIEW AND PLANNING

Check how your investments have performed and assess the fees you are paying. Make sure your risk level still suits your goals. Look for ways to spread your risk (diversify).

RETIREMENT PLANNING

Review your pension, provident, preservation fund and/or retirement annuities. Adjust contributions to stay on track for retirement. Explore tax-smart ways to grow your retirement savings and reduce tax payable.

TAX PLANNING

Get ready for your annual submission and plan for the tax year ahead. Maximise tax-friendly investments and deductions. Ask about strategies to reduce your tax bill the smart way.

INSURANCE AND HEALTHCARE

Make sure your life, disability and income protection cover are enough. Review your medical aid or hospital plan and gap cover. Also coverage on your car, home and other valuables.

ESTATE PLANNING

Update your will (or create one if you haven't yet). Check that your beneficiaries are current (in your will and other policies). Consider setting up a trust, if needed.

The above is included in all our packages and plans and is delivered to you based on your unique situation and planning complexities

Foundation

If you want to get the basics right, this one's for you.

We'll help you take control of your day-to-day money, set up smart habits, and put some solid building blocks in place. Whether you're just starting out or keeping things simple, this plan gives you peace of mind and a clear direction.
